

GOALS

Ensure that the older adult receives the care that is appropriate for his or her unique needs;

Create and maintain a safe environment that supports the maximum possible level of independence and autonomy for the older adult;

Help families handle the stress and responsibility of caregiving.

Senior Care Management was founded by Barbara Bristow L.C.S.W and Janice McCurdy L.C.S.W in 1990. During their combined forty plus years of experience in geriatrics and social work, they recognized the need for independent, knowledgeable professionals to guide and support families in addressing the needs of older relatives.

“We believe that our knowledge, experience, respect and compassion ensure that you and your relative will feel comfortable with your decisions and the quality of care provided.”

Barbara Bristow (on right), LCSW earned her Master's in social work at Rutgers University, and has been a professional in the field of aging since 1978. She has developed rehabilitation and treatment programs and case management services for older persons both in community and institutional settings, and served as an administrator at the Hagedorn Center for Geriatrics. In addition to conducting conference workshops, she is a collaborating author of the book *Recapturing Competence: From Custodial Care to Rehabilitation and Treatment*. Barbara is a past member of the Board of Directors of The Greater New Jersey Alzheimer's Association and a past board member of The National Association of Professional Geriatric Care Managers. She has served as the Director of Social Work at several New Jersey facilities providing long-term care. Most recently, she was the Director of Social Work at the Hagedorn Center for Geriatrics. She is a certified gerontologist, a graduate of Syracuse University and a Registered Guardian.
